5. Copee is a hard-working cop. He found a case and almost at the verge of cracking it. It could be his best breakthrough. He has the list of criminals but lots of duplicates are there. He needs to find the only one that is different. He sought your help. How will you sort this issue?

**Ans:** Exporting them to a word/ text file, then using the sort | uniq command.

**Eg:** let the file be named, criminals:

```
sort criminals | uniq --c
```

6. What are the four parts of file's permission?

**Ans:** Read, Write, Delete, Execute
